INTRODUCTION

In a world where money often causes anxiety, insecurity, fear, and pain, three new currencies are being introduced to help you overcome any energetic blockages related to money, heal your relationship with it, and enhance your financial capacity to create abundance and generational wealth.

These three currencies are channeled by Spiritual Teacher Alain Dagba and are named LHE, MHE, and HHE. Each currency carries its own vibration, reflecting your deep-seated beliefs about yourself—your self-concept or self-image.

This material will guide you on how to utilize these mystical currencies to elevate your psychic energy concerning the conventional currencies of your country.

- **LHE** stands for Low High Energy.
- **MHE** stands for Medium Higher Energy.
- **HHE** stands for High High Energy.

As you can see, each currency embodies a high energy level. They will each reveal what you fundamentally believe about yourself in

relation to money: how you earn, how much you can attract and manifest, and whether you possess the power of SELF to build generational wealth.

The method taught in this book by Spiritual Teacher Alain Dagba for using these auric and mystical currencies is called **Cashtegram**.

Money is an integral part of our lives, yet it often brings a whirlwind of emotions—anxiety, insecurity, fear, and pain. For many, the thought of money is synonymous with stress. But why does something that should be a mere tool for facilitating our needs and desires become such a source of emotional turmoil? To answer this, we need to dive into the concept of energetic blockages related to money and understand how our self-image directly influences our financial reality.

IMPORTANT INFORMATION

Be on the lookout for the link or QR code to print all three mystical auric currencies to use during your prayers and imaginal acts for money manifesting. They must be printed in color. Do not use black and white print.

HOW DO USE THIS BOOK?

I wrote this book to automatically rewire your brain as you read. The same technique used in affirmations are used in this book but in a very subtle and subliminal way to inject positive redundant statement to your subconscious mind.

This method of writing is to prepare your subconscious mind for the usage of the mystical auric currencies and the wealth-identity upgrade meditation to raise your sense of worth and deserving.

So, take your time to enjoy the book, and feel excited whenever the same new, exciting, and positive ideas and concept about money keep showing up in the book. It's intentional. Repetition is the mother of permanent transformation and the father of new habits.

THE MOST IMPORTANT PART OF THIS BOOK:
THE PRELUDE

PRELUDE

Why am I writing this book? As I answer this question, your own spirit will bear witness to the truth that you will soon see.

For what I am about to share with you is already known to your Higher-Self.

And as it is written in scripture, “*The Spirit testifies with our spirit...*” (Romans 8:16).

So, I will not need to convince you about the veracity of what you are soon to read.

It will be made known to you by your own spirit through the Spirit that this is TRUTH.

This prelude is the anchor or the foundation of the entire book.

What is it about? It's about what has been done to your mind to keep you poor.

It's about what has been done to your mind to make sure you work for money for the rest of your life.

It's about what has been done to your mind to keep you afraid of losing the wealth you acquire.

It's about what has been done with money to make you a slave to money for the rest of your life.

After reading this prelude, you will feel like a new eye has been given to your mind to see. This is the power of TRUTH.

Now, you must understand something important: money is a psychic vibration and archetype.

When you feel anxious about money, that feeling is a vibration that buzzes throughout your body.

There is a money-personality wired inside your brain creating that feeling or vibration of anxiety.

That money-personality is what I call your money archetype. And we all have one.

If your money archetype is healthy, you feel so much excitement about giving money, spending money, investing money, and building wonderful things with money.

So, this money archetype is your Feeling of Deserving (FOD). It could be very low, low, or high. Our goal is to raise your FOD and keep it high.

In this book, you will see that I have connected each level of money archetype or FOD to specific mystical

auric currencies to facilitate your brain re-wiring to break bad financial habits and generational curses.

There are three different mystical auric currencies, as you see on the cover, to replace the picture of the currencies of your country of origin inside your brain during the re-wiring and re-programming. Why is this important?

This is extremely important because your brain works by association. All the negative and toxic energies you may have wired inside you are associated with the picture of the familiar physical money you grew up seeing and use daily.

For the re-wiring to work, we need a new picture of money. We must pour the new wine or ideas about money into new pictures of money or wineskins.

There are certain amounts of money either in spending or acquiring that trigger negative energies or feelings in

different people. These amounts of money are represented by LHE, MHE, and HHE.

For example, the money archetype with a very low FOD (feeling of deserving) corresponds to a toxic energy you hold about money. We will use the mystical auric currency LHE.

For the money archetype with a low FOD (feeling of deserving), we will use the mystical auric currency MHE. Lastly, for the high FOD, we will use the mystical auric currency HHE.

Once we detox each mystical auric currency, we will refill them with new positive energies or feelings, and your relationship with money will become the best.

Removing the False Belief about Money

The world's system of economy instilled in you a wrong belief about the position of money that makes it difficult to make money and to keep money. Today, we are going to remove that belief.

They divided the way to acquire material things into three dimensions and placed money in the wrong category. But today, you will remove that false belief and see a way wide open for you to acquire wealth and prosperity God's way—without having to damage your mind, soul, and body.

Here Is The False Map. This is what they did; and please pay attention here:

1. **Dimension 1:** The material things you desire.

2. **Dimension 2:** The money you need to buy the material things you desire.
3. **Dimension 3:** The material things themselves you wish to buy.

They told us that to have the material things we desire (**Dimension 1**)...

...we need to first get the money (**Dimension 2**)...

...and then we can buy the material things (**Dimension 3**).

This map is a virus. It's a psychic cancer. This is why a lot of people feel handicapped, paralyzed, limited, incapable, and unable to do anything because "they don't have money."

Many people can't even make a plan for their future or dream, because they are waiting for money. They must ask money for permission to dream and to believe

in what could be possible. This is the meaning of making money your God.

You ask people, “why have you not started your business?” The reply is often, “I need money”, “I need a capital”, or “I am putting money aside to start.” It sounds moral and wise right? That is exactly how psychic viruses sound, so you can believe in them with ease.

This is a false map designed to:

1. Keep people poor and under control—as most are.
2. Make people lose the wealth they build—as it often happens.
3. Keep people working for money.

Money is placed in the wrong category, allowing control over the world economy, over you, your family, and your children.

Here Is The Correct Map:

Today, I will remove that old corrupt map from your mind. You will start creating miracle money in your life. Miracle money does not mean you won't work or add action to your faith. "Faith with no action is dead [anyway]" (James 2: 17-23).

THE BIG QUESTION:

If the physical money itself is made of paper, coins, and credit cards, and is itself a material thing, in which dimension should it be? See the order below.

1. **Dimension 1:** You and your desire for material things or anything you want in this world.
2. **Dimension 2:** ??? (remove money from here)
3. **Dimension 3:** All the material things you want, all your desires including money itself.

Never put money between you and what you want. It's a false map. A virus to limit you and incapacitate you financially.

The Middle Dimension

What should be in the middle? Now that you know money itself must be purchased, what should be in the middle?

The Revelation

THE FEELING OF WHO YOU ARE is the currency to buy everything in this world.

See The correct Map:

1. **Dimension 1:** You and your desire for money, house, cars, vacations, good relationships, health, many businesses, business partners, clients, a successful calling.
2. **Dimension 2:** The feeling about who you are as the currency of exchange to purchase from the universe who is the one selling everything you want. This currency is FOD (Feeling of deserving).
3. **Dimension 3:** You having or(manifesting, or attracting, or

creating money, house, cars, vacations, good relationships, health, many businesses, a successful calling.

The person who increases your feeling of (you) deserving has increased your bank account.

Understanding Feeling Currency

Everything in this world is for purchase. The universe is the one selling them. It owns shops in many states. You can even purchase a new version of your spouse, one who is happier, healthier, and more relaxed; and he or she will appear in the same body.

Don't let the word "purchase" as the world sees it blind you. For indeed everything is to be purchased. Even the scriptures tell you that "you have been purchased or bought at a great price—with blood (divine flow of pure energy

from the Christ essence)” (1 Corinthians 6: 20).

You can purchase anything. Everything has a price, and the price is the feeling you have about yourself as the person who deserves what you want or not. That’s the only currency in the world.

THE SECRET

Once you know what’s written on the price tag of what you want, which means how much FOD it costs, you can purchase it in your imagination by increasing or decreasing the force of frequency inside the FOD.

Sometimes if what you want costs less than your amount of FOD, you won’t be able to buy it. This is where being overconfident, or an overachiever turns into cosmic self-sabotage.

Because you are using too much energy trying to get something so little. Energy

wastage is a sin (missing the mark of spiritual dispensation of energy). What is sacred cannot be wasted.

The Detail of Feeling Currency

Each feeling currency is how you feel about yourself. That feeling is also the glue that holds the material thing in your possession.

Once we lose the feeling that glued the corresponding material thing, we also lose the corresponding material thing. It's called falling out of state or grace. So, be watchful of people who make you feel worthless and low. They are emptying your bank account and wallet.

You don't want to keep falling out of your garden of Eden because you keep talking to the wrong people. Now, let's see an example of how FOD works.

Examples:

- If a house costs \$100,000, you need a feeling currency of deserving the house to be 45%.

\$100,000 House -----> 45%FOD

- Give that feeling to the universe, and the universe will sell the house to you.

YOU UNDERSTAND?

- If a house costs \$500,000, you need a feeling currency of deserving the house to be 75%. Give that feeling to the universe, and the universe will sell the house to you.

\$500,000 House -----> 75%FOD

You must always have the exact amount of FOD. The issue is many people don't know how much the items they want cost in feeling of who they are.

If they have only 45% of the feeling of deserving (FOD) for the house that costs 75% (FOD), the universe will not sell it to them. They need 30% more of (FOD). They must increase their FOD. It's all about identity shifting and programming my people. There is nothing else.

The Correct Map Recap:

1. **Dimension 1:** You and your desire for money, house, cars, vacations, good relationships, health, many businesses, business partners, clients, a successful calling.
-
2. **Dimension 2:** FOD: The feeling about who you are is the currency of exchange. Who you are is the

person who deserves what you want.

3. **Dimension 3:** You having, manifesting, attracting, creating the money, house, cars, vacations, good relationships, health, many businesses, a successful calling using the correct frequency of FOD.

Now that you know why I wrote the book, and you have seen the reason it's important, I will reveal to you the angelic auric currencies I have been given to represent levels of FOD during prayer and imaginal acts to manifest your desires. Why? Because the physical "*moneys*" of the world are infected by the old wrong map on the psychic plane, making it hard to manifest wealth.

CHAPTER ONE:

The Emotional Landscape of Money

Our relationship with money is deeply personal and complex. From an early age, we are taught various beliefs about money—some explicit and others implicit. These beliefs are shaped by our family, culture, society, and personal experiences. Over time, they form a part of our subconscious mind, influencing our behaviors and attitudes towards money without us even realizing it.

For instance, if you grew up hearing phrases like "Money doesn't grow on trees" or "We can't afford that," you might develop a scarcity mindset. This mindset can create a persistent fear of not having enough, no matter how much you actually have. On the other hand, if you were taught that money is the root of all evil, you might subconsciously sabotage your own financial success to stay aligned with that belief.

Energetic Blockages and Self-Concept

At the core of our financial struggles lies our self-concept—the deeply held beliefs about ourselves and our worth. The amount of money you can attract and maintain in your life is a direct reflection of your self-image. Energetic blockages occur when there is a disconnect between our desire for financial abundance and our underlying beliefs about what we deserve and can achieve. These blockages manifest as feelings of anxiety, insecurity, fear, and pain related to money.

Imagine your self-concept as the foundation of a house. If the foundation is weak or damaged, no matter how beautifully you try to decorate the house (your financial strategies), it will always be unstable. Similarly, if your self-concept is filled with negative beliefs about money, your financial reality will

reflect those beliefs, creating a cycle of stress and struggle.

When you say, "I cannot afford it," you are effectively stating that your "I"—your self-concept—is vibrating at a lower frequency compared to the potential purchase. This phrase reveals that your energetic vibration is not aligned with the level of abundance required to afford that item, underscoring a belief in lack rather than potential.

The Role of Energetic Vibrations

Every thought and emotion carries a specific energetic vibration. Positive thoughts and emotions vibrate at a higher frequency, while negative ones vibrate at a lower frequency. When it comes to money, our energetic vibration can either attract or repel financial abundance.

High-frequency vibrations, such as confidence, gratitude, and love, attract

positive financial experiences. Conversely, low-frequency vibrations, such as fear, guilt, and resentment, attract negative financial experiences. Understanding and raising your energetic vibration is key to transforming your relationship with money and breaking free from financial stress.

Introduction to the Three Mystical Currencies

To help you overcome these energetic blockages and elevate your financial vibration, I am introducing to you three mystical currencies: LHE (Low High Energy), MHE (Medium Higher Energy), and HHE (High High Energy) that represent different levels of **FOD**.

Each of these currencies holds a unique vibration, designed to reflect and transform your self-concept regarding money. It's all about **IDENTITY**.

- **LHE (Low High Energy):** This currency helps you identify and heal the lower energy beliefs about money that are rooted in fear and scarcity. What you believe about money reflects what you believe about yourself.
-

- **MHE (Medium Higher Energy):** This currency guides you in elevating your medium-level beliefs about your financial potential, fostering a mindset of possibility and growth.
-

- **HHE (High High Energy):** This currency represents the highest energy vibration, empowering you to fully embrace your ability to attract and manifest abundant wealth.

Through the use of these mystical currencies, you will learn to cut out negative energetic patterns and raise your psychic energy, ultimately transforming your financial reality.

The more you elevate your self-image, the more financial abundance you can attract and maintain.
